

Full-featured contact manager plus a business card scanner. Designed for sharing contact data.

CardScan Team features contact management software for two users with a desktop business card scanner. Capture contact data and share it across a network and much more.

- Consolidate all your contact information and share it with your colleague
- Scans in color in about 3 seconds
- Reads 7 languages from 14 different countries' business cards
- Captures information from email, web pages and other electronic files (not just business cards!)
- Easy to use software for searching, sorting, categorization, mapping addresses, printing labels, and much more
- Includes online backup, web access and updating service
- For two users. Expandable for multiple users.

**"I think CardScan should be
mandatory in every office of every
business.... It's that good."**

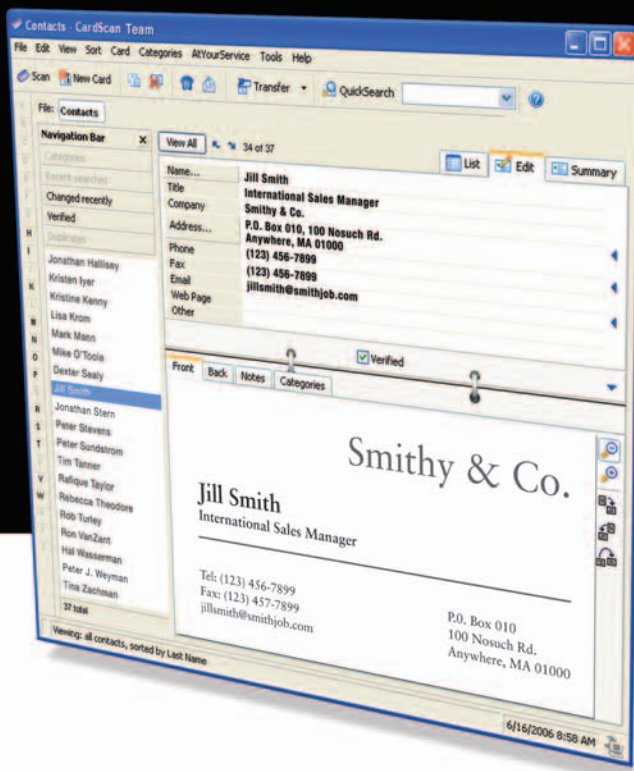

Colin Baird
Account Manager

System Requirements:

- Microsoft Windows XP or Windows 2000
- Pentium or later processor
- For two users. Can be expanded to include more software licenses and scanners

30 DAY UNCONDITIONAL GUARANTEE
